COLLEGE ABOUT TO BE FIRED

When Officers Appeared and Arrested the Owner, It Is Alleged.

Prestonburg, Ky.—A few days ago John L. Coleman, of Mt. Sterling, agent for the Ohio German Insurance Co., received a tip that a plot had been made to burn the Barrington college, which was located in his company. Mr. Coleman had paid one loss on a suspicious fire at that school and was determined to investigate. He accordingly secured the services of C. H. Overly, a detective, and sent him to the scene. It is charged that Overly found a man named Frank Ellis, who was suspected, and told all about the plot. He was told by the detective, so it is said to carry out his part of the program and they would catch W. M. Barrington, who owned the school, Ellis having told the detective that Barrington had offered him \$500 to burn the building. Under the instructions of Overly, it is further related, Ellis carried out the arrangements with Barrington and poured two gallons of oil in the building. Barrington was in the room with Ellis, it is alleged, and the building was about to be fired when the sheriff of Floyd county and Overly arrested both men as they came out of the building. Barrington is very wealthy and very influential. Ellis is a poor man and will be used as a witness.

BURGLAR RAN FOR DOCTOR

That the Woman Accidentally Shot Might Live.

Glasgow, Ky.—A burglar going for a physician when the woman accidentally shot when he was breaking into her home might not die, is reported from Hardin county. Matt Sandige, a cripple, and his wife were awakened by the burglar's movements. Sandige and his wife picked up firearms conveniently adjacent and commanded the intruder to depart. He declined, and the couple began firing. Mrs. Sandige's skirt caught on the trigger of her gun and the load entered her right thigh. "For God's sake, call a doctor!" Sandige cried to the burglar. The man, however, departed at once, and within a short time a physician arrived, saying he had been summoned by a stranger. Mrs. Sandige's recovery is considered doubtful. A man giving his name as Peak has been arrested, charged with the attempted burglary.

OFFICIAL COUNT

Of Kentucky's Vote Will Cause No Changes, It Is Predicted.

Frankfort, Ky.—The democratic state executive commission will canvass the returns of the recent state primary and issue certificates to the successful candidates. There is no probability that the official figures will change the result of any race, it is predicted. The only candidate not living in Frankfort who has arrived to witness the official count is M. O. Wilfong, of Bell. A meeting of the state election commission was called for Monday, November 26, to canvass the returns in the congressional election. The law says the count must be made that day, whether the returns are in or not, but Boone county has failed to report thus far, and unless its returns are in by Monday Joe Rhinock might lose his seat in congress.

Detective Marti Donahue testified the prosecution expected to prove that Ely was guilty of improper intimacy with his daughter. A dispatch from Cloverport places Ely in a bad light. It is said that when living in that town a few years ago Ely mistreated a girl and was compelled to leave.

Farmers are very busy gathering corn. A large acreage of wheat has been sown in this part of the county (which is the extreme western part) and it looks fairly well.—The early snowfall of Wednesday the 14th made us believe that Winter had come in earnest; but we may have some pleasant weather yet.

DEAD—A young Mr. Stepper, who had recently moved into our vicinity from Cowsley county to near Sandy on the Pulaski side, died at his home of typhoid fever, Saturday November 17th. His remains were laid to rest in the Poplar Grove burying ground Sunday afternoon in the presence of many dear relatives and friends. He leaves a young wife and three dear children besides a host of friends to mourn their loss. The bereaved family has the sympathy of the entire neighborhood. May God be a father to the three little children and a husband to the dear wife.

Say brother farm do we mean it; or do we just merely post our land because we have nothing else to do?—The school at this place is progressing nicely with a large attendance.—H. N. Denney says that if he kills his brother farmers' birds, he will give them half the proceeds. Such work as that is leaning toward the Golden Rule isn't it?—The protracted meeting held at Poplar Grove by Brothers Koker, of Madison county Godbey, of Pulaski, and Cummins, of this place, closed last Thursday with only one addition. But we

hope and do certainly think that much and lasting good was accomplished by the many good lessons taught.

SELLS MORE OF CHAMBERLAIN'S COUGH REMEDY THAN OF ALL OTHERS PUT TOGETHER.

The following letter from a local where Chamberlain's Cough Remedy is well known shows by the unprecipitated demand for it that the medicine sells on its own merit. Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says, "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by Chas. C. Davis the leading druggist, Mt. Vernon.

IN TIME OF PEACE.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have chinked their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it is contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by Chas. C. Davis the leading druggist, Mt. Vernon.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J.
